CAREER OBJECTIVES

To work with an organization that utilizes my software development skills and experience for mutual benefit and offers professional growth with challenging responsibilities.

SUMMARY

Driven by a passion for user-centric web experiences, I deliver impactful backend, frontend and robust testing strategies. 2+ years of dedicated learning and problem-solving have honed my skills to craft innovative, high-quality maintainable software solutions.

PROFESSIONAL EXPERIENCE

Tech Mahindra   Pune, India
Software Engineer   Oct-2021 — Present
- As a web developer working on the Edge dispatch system, I'll be responsible for designing, developing, testing and maintaining the web-based front end of the system.
- My work contributes to the system's usability, data presentation, and seamless integration with other applications.
- Successfully implemented complex automation frameworks for API, back-end, and front-end testing, demonstrating strong technical capabilities and problem-solving skills.

TECHNICAL SKILLS

- **Languages:** JAVA, JavaScript, Python, SQL, HTML, CSS
- **Framework:** React JS, Spring Boot, Cucumber, selenium
- **Tools / Technologies :** SOAP, Postman, Azure DevOps, MySQL, SQL Server, MongoDB, PostgreSQL, Node JS
